Lumbermen's Finish Featuring PrismaGuard® Premium Paint

Lumbermen's is introducing Therma-Tru® doors finished with PrismaGuard premium paint. With colors inspired by nature, PrismaGuard offers a color palette designed to enhance the overall beauty of the entry.

Handcrafted and perfected by professionals, this inspirational color palette features high-end, low-maintenance premium paint with a durable coating that protects the entry and preserves its color for years to come.

Product Highlights

- Delivers a pop of high-definition color, allowing the customer to tailor the look of the entry and make a beautiful lasting impression.
- Lab-tested with specialized equipment to help ensure lasting beauty, resistance against fading and wear and tear, and protection from the elements.
- Engineered for optimal performance with Therma-Tru fiberglass doors, DuraTech jambs and most door surrounds.
- Backed by a 10-year limited finish warranty from the entry door brand building professionals choose most.*

*Brand Use Studies, 2019 Builder and 2019 Remodeling magazines.

Note: See your Therma-Tru seller or visit thermatru.com for details on available product sizes and options, limited warranties and exclusions.

A hand-crafted step-by-step process

- 1 It starts with the smooth or wood-grained surface of a Therma-Tru® door, door frame or door surround.
- 2 A base coat provides an even, consistent color across the surface.
- 3 A durable topcoat enhances the high-definition color while protecting against scratches and color fading.
- 4 A second application of the topcoat provides added durability and optimal sheen for a high-end look.

Due to the printing process, colors shown approximate the actual paint color as closely as possible.

Lumbermen's Finish Featuring PrismaGuard® Premium Stain

With an inspirational palette of stain colors, PrismaGuard finish brings a premium look and unique style to a home, inside and out. Install with confidence knowing you'll deliver a consistent finish color that will stand up to potential damage during installation, helping to meet customer needs and reduce callbacks.

Handcrafted and professionally applied, a PrismaGuard finish is built to last, giving your customers confidence and peace of mind.

A hand-crafted step-by-step process

- 1 It starts with the realistic wood grains and deep embossments of a Therma-Tru® door.
- 2 A base coat provides an even, consistent color across the surface of the door.
- 3 A wiping stain enhances the base coat to reflect the natural beauty of wood.
- 4 A durable topcoat enhances the color while protecting against scratches and color fading.
- 5 A second application of the topcoat provides added durability.

Samples show differences in grain between the different door styles. All are shown in Wildflower Honey.

PrismaGuard Paint & Stain Finish

Backed by a 10-Year Limited Warranty

Warranty Coverage

When applied to Therma-Tru® fiberglass doors, sidelites, transoms and genuine Therma-Tru components of a door system*, PrismaGuard finish is warranted against:

- Peeling and Flaking
- Blistering
- Chalking
- Checking

**Genuine Therma-Tru components include applied or inserted panels, astragal, dentil shelf, simulated divided lites, wood grilles, as well as rot-resistant, primed Pine or Oak jambs, mullions and brickmould.*

Exclusions

PrismaGuard warranty coverage does not include:

- Scratches or visual imperfections outside of standard parameters
- Performance or integrity of third-party frame products
- Labor for removing or reinstalling the product
- Warranty is not transferrable
- Note: 3-Year Limited Warranty for commercial/multi-resident properties

Maintaining Warranty Coverage

REQUIRED MAINTENANCE

(Required for continued warranty coverage)

CLEANING THE DOOR

For continued warranty coverage it is required that the surfaces of the door are cleaned every 6 months, or on an as needed basis. For routine cleaning, a soft towel, warm tap water and mild soap should be used.

DIRECTIONS:

- Combine water and soap solution
- With a soft towel, gently clean the interior and exterior face of the door
- Rinse the surface of the door with clean water
- Dry the face of the door with a soft towel

Maintenance Recommendations

(Not required for continued warranty coverage)

TOUCH-UPS FOR SCRAPES AND SCRATCHES

For scrapes and scratches 2-inches or less on the door surface, we recommend the use of a touch-up kit. It is specifically designed to coordinate with the color of your door and is generally available from the dealer/distributor from which the door was purchased.

TOPCOAT

All exterior finishes can be affected by exposure to sun, weathering, moisture and air pollutants. Therma-Tru recommends applying a high quality, low gloss exterior-grade urethane clear coat that does not contain Ethylbenzene (such as Same-Day® Stain Top Coat) to the door surface once there is a decrease in gloss, if topcoat feels rough to the touch, or every 3-5 years as a part of a preventative maintenance routine. Be careful to follow all manufacturers' instructions.

Why Choose a Lumbermen's Prefinished Entry Door

Add the finishing touch to a Lumbermen's entry door with a custom finish. Available in many popular paint and stain colors to match any home's décor. Our factory trained painters and stainers use state-of-the-art equipment to ensure all entry doors will maintain that beautiful appearance for years to come.

Factory finishing ensures consistent color, texture and uniform coating. The fact that doors are finished in a controlled environment means there is less possibility of dust or other debris getting into the paint or stain, which could happen if doors are finished at the jobsite. Prefinished doors can also help save time because they can be hung immediately. No need to apply several coats of paint or stain on site and no downtime waiting for it to dry.

The Lumbermen's factory finish process:

- Doors are lightly sanded to remove surface blemishes
- Paint/Stain is applied in a controlled environment
- Paint/Stain is baked on for a hard, durable finish
- Doors are poly bagged and protected for shipment
- We use only waterborne finishes that are environmentally friendly

Available Options:

- Classic Craft wood-grain fiberglass
- Classic Craft smooth fiberglass
- Fiber Classic wood-grain fiberglass
- Smooth Star smooth fiberglass

Lumbermen's has dedicated many years to producing "Best in Class" entry door systems. We are committed to investing in rewarding relationships. And because we are employee-owned, everyone is personally invested in exceeding your expectations.

The Lumbermen's System Advantage

Lumbermen's manufactures complete entry door systems, beyond just the door itself. All of these components combine to create inspired openings that provide both beauty and durability.
