

The little things... we've built an entire company on getting them right.

At Mid-America, we believe that true beauty lies in the details. It's why we're so passionate about providing the best siding accessories in the business. And why we've designed them to be both durable and stunning. Because for us, a great home exterior starts with the finishing touches.

Through our versatile "system" approach, color coordination, and wide range of sizes and styles, we make it easy to find the perfect details to match and accentuate any home. And since many are designed to mount directly onto any new or existing siding, they're as easy on contractors as they are on the eyes.

On the cover: Raised Panel Shutters, Black (002)
9" Flat Panel Window Headers with Keystones, White (001)

The choice is yours.

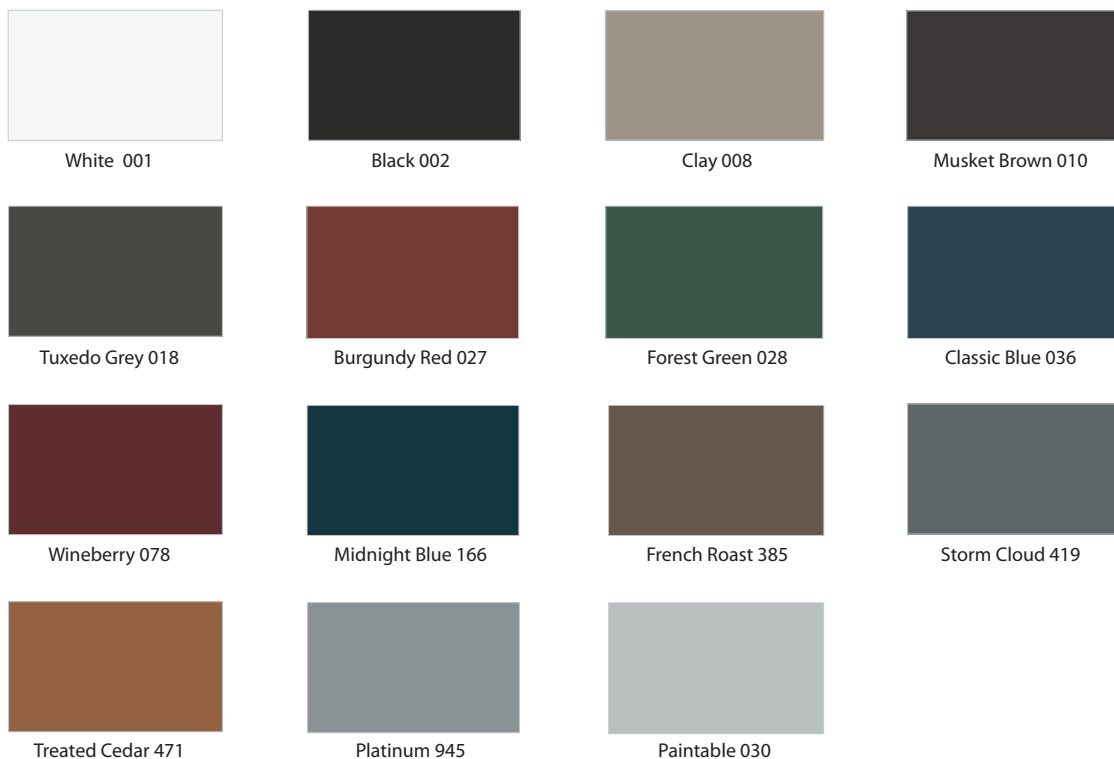

Nothing brings a home's exterior to life like gorgeous shutters. They not only complement a home's windows, they also provide another dimension of beauty and vibrancy. That's why we offer two shutter categories to choose from.

Standard shutters come in all the most popular sizes and colors, making it easy to find a shutter that matches the needs of almost any project. But don't worry. If a project requires a more personalized look, there's also our specialty shutters. They allow for customized styles, widths and lengths, making them perfect for those projects that need that special touch.

A range of colors for one gorgeous home.

Shutters and siding are the most visible parts of any home exterior. Which makes finding the perfect color combination for the two so pivotal.

It's why at Mid-America, we offer an industry-leading color palette. Our shutters come in a variety of SolidThru™ colors, making it easy to complement any home's siding. We also offer a paintable version for your custom colors.

Actual colors may vary from printed representations.

Louver Shutters, Treated Cedar (471)

Standard Raised Panel Shutters, French Roast (385)

Board-N-Batten 3-Board Spaced Shutter Wineberry (078) • 6" Window Headers, White (001) • Rectangle Gable Vent, White (001)

Designed To Blend In. Built For Toughness.

SturdiMount Mount Blocks are designed to provide a strong, smooth mounting surface that complements uneven exterior finishes such as lap siding, brick, stone or stucco. It's a detail that is often overlooked that provides easy installation of light fixtures, vents, plugs, and more. SturdiMount blocks provide a finished look that complements a wide range of exterior materials. The ABS flange is designed to keep water at bay. Made of cellular PVC to provide a lifetime of low-maintenance durability. Available in Trim White.

Jobs Finished Using Sturdimount

Jobsite Fabrications

If you're installing a premium hardboard siding, the use of SturdiMount will ensure you don't end up like these homeowners.

THIS PRODUCT CAN BE PAINTED. For best results, use a 100% acrylic paint or paint that is formulated to bond to plastic and PVC. Always follow the paint manufacturer's instructions for surface preparation and priming.

Blocks and Vents for Insulated Siding

Sometimes, a standard mounting block just won't cut it. That's where our insulated siding blocks come in. Designed with extra depth in mind, this is where to turn when you're adding extra insulation to your siding.

J-Channel Back Plate for Headers and Pilasters

- Provides a flat mounting surface for headers and pilasters.
- Built-in J-channel helps prevent water penetration.
- Can be ordered in all standard and specialty header sizes.
- Pilaster J-Channel Back Plate is 96" in length by 3/4" deep and can be cut to desired size.
- J-Channel Back Plate provides a flat mounting surface for headers. Accepts 3/4" thickness.
- J-Channel Back Plate must be ordered separately.
- Note: J-Channel Back Plates available in white (001) and paintable (030) only.

Door Surrounds

Pilaster Kit

used with 6" and 9" Headers, sold separately

Item # M 00 88 1111 ***

Kit includes 2 Pilasters with bases
2 bottom corners with bases
2 transition tops, 4 transition clips
and mounting fasteners

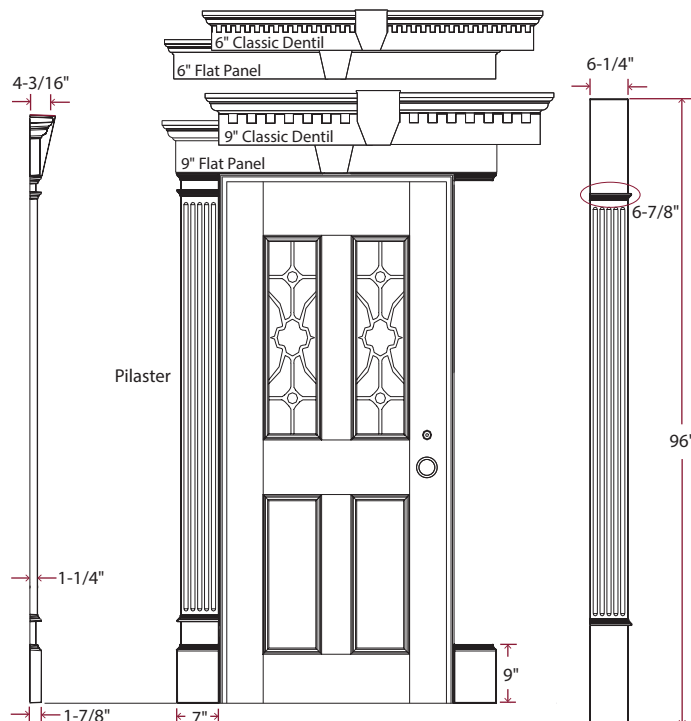

- 3 Colors: 001, 002, 123, and paintable (030). Ask about other colors that are available with a 20 unit minimum.
- Note: Headers with welded on End Caps require modification in the field to fit flush with the Pilaster.
- Pilaster dimensions: 96" x 6-7/8" x 1-7/8"
- Accommodates extra tall openings up to 8-1/2 feet.
- Includes mounting fasteners.
- Garage door surround with 6" Classic Dentil or Flat Panel header up to 144"
- Garage door surround with 9" Flat Panel header up to 256"

J-Channel Back Plate for Pilaster

Item # M 00 83 2696 ***

2 per box

- Note: Back Plates only available in white (001) and paintable (030).

Common Door Sizes:

- 32" Door = 51-1/2" Header
- 36" Door = 55-1/2" Header
- 10' Door = 139-1/2" Header
- 16' Door = 211-1/2" Header

These overall dimensions assume:

4" for brick mold, 14" for pilasters, and 1-1/2" for transition pieces

*** Indicates color numbers.

Gable Vents

From protection to performance to style, these vents have it all.

The woodgrain finish and sharp distinctive features provide exquisite architectural detail, while their double baffle design provides added protection from the elements. And with the most styles, sizes and colors in the industry, it's no wonder they've become the industry benchmark.

Refer to Mid-America price book for complete size offering and part numbers.

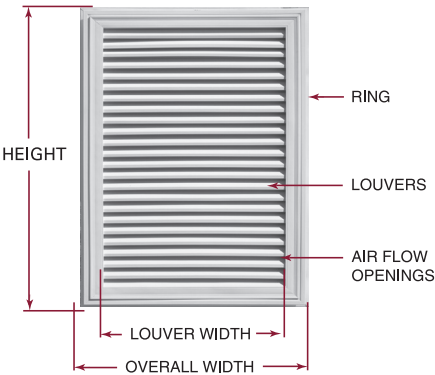

SPECIALTY GABLE VENTS

Only available in White (001) and Paintable (030).

Heights are available in specified increments based on the number of louvers.
Rectangular and square vents available in virtually any width from 12" to 96".
Locking Positions 5/8", 7/8", 1-1/8", 1-3/8"
Specialty Vents are non-returnable.

Note: 4/12 and 5/12 ship with squared ends to retain proper pitch and ventilation.

How to Figure Net Free Ventilation Area for Rectangle/Square Vents

$$NFVA = (\text{Width} - 7.12) \times (.70) \times (\text{Louvers} - 1)$$

Example: 34" (W) x 42" (H) Vent

34.00	Outside width
<u>-7.12</u>	Ring & frame width
26.88	Width of one louver (air flow opening)
26.88	
<u>x .70</u>	Height of one air flow opening
18.82	Area of one air flow opening (in sq. in.)
16	Number of louvers
<u>-1</u>	Uppermost louver does not provide air flow
15	
18.82	Area of one air flow opening (in sq. in.)
<u>x 15</u>	Number of air flow openings
282.30	Net free ventilation area (in sq. in.)

Height in Inches	Number of Louvers	Height in Inches	Number of Louvers
17.8	5	51.6	20
20	6	53.8	21
22.3	7	56.1	22
24.6	8	58.3	23
26.8	9	60.6	24
29.1	10	62.8	25
31.3	11	65.1	26
33.6	12	67.3	27
35.8	13	69.6	28
38.1	14	71.8	29
40.3	15	74.1	30
42.6	16	76.3	31
44.8	17	78.6	32
47.1	18	80.8	33
49.3	19	83.1	34

Roof Ventilation

Mother nature is tough. That's why our roof ventilation is tougher. The durable copolymer construction makes it uncommonly strong and reliable. Its self-aligning, interlocking ends provide quick alignment and ensure that no weather or insects can enter between venting units.

CapMaster

Item # M 00 07 0007 ***

Packaged one per box

Colors: Dark Grey (018), Light Grey (017), Black (002), Brown (010)

- Use for all 3" & 4" vent pipes.
- Adapts to all roof pitches from 3/12 to 12/12.

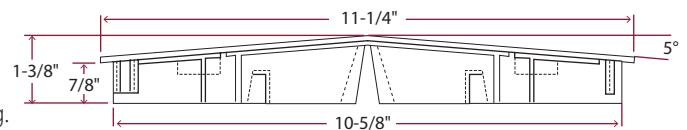

11" RidgeMaster® Plus

Item # M 00 07 1100 002

40 lineal ft./box (ten 4' pieces)—18 boxes/skid.

- For roof pitches from 3/12 to 12/12.
The added pitch shows more shingle profile and less vent opening.
- Easily adapts to a Peak Vent or Flash Vent.
- Internal baffle engineered to keep snow and rain from entering.

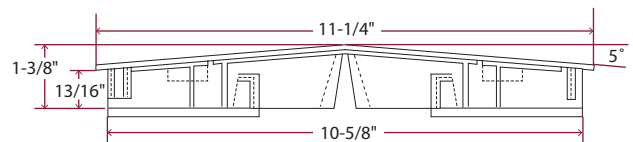

11" Hip Master®

Item # M 00 07 1111 002

40 lineal ft./box (ten 4' pieces)—18 boxes/skid.

- For roof pitches from 3/12 to 12/12.
- The triple baffle system's engineered to keep blowing rain and snow from entering.
- Can be joined with RidgeMaster Plus.

HOW TO FIGURE PROPER VENTILATION

- 1 sq. ft. of ventilation for every 300 sq. ft. of attic space with 50% in ridge and 50% in soffit.
- RidgeMaster Plus and Hip Master:
12.228 sq. in. per linear foot—Net Free Ventilation Area

EXAMPLE: 2,000 SQ. FT. ATTIC

- 40' x 50' = 2,000 sq. ft. attic.
- 2000 sq. ft./300 sq. ft. = 6.67 sq. ft. (total ventilation req.)
- 6.67 x 144 = 960 sq. in. (conversion to inches)
- 960 sq. in. = 480 sq. in. (ridge) + 480 sq. in. (soffit)
- A 50' ridge with RidgeMaster installed equals approximately 600 sq. in. of ventilation.

*** Indicates color numbers.

Color Program

SHUTTERS

14 Colors: 001, 002, 008, 010, 018, 027, 028, 036, 078, 166, 385, 419, 471, 945, and Paintable (030).

BE BOUNDLESS™

THE PRODUCTS TO DO EVERYTHING. THE POWER TO DO EVEN MORE.

We're answering "what ifs" on a whole new level—from the solutions we create to the dreams we build. We have the tools and technology to tell design stories on a bigger scale and on a more personal level. There are no limits to how far we innovate, how deeply we express, how strongly we commit and how boldly we go.

Together let's Be Boundless™.
