

ENGINEERED TO LAST BEAUTIFULLY

TRIM | MOULDING | SIDING | FASTENING

AZEK[®]
Exteriors

THE #1 BRAND FOR PREMIUM PVC TRIM & MOULDING

We're committed to innovation so you can deliver the best-in-class designs your projects deserve.

With over 20 years in the business, industry-leading warranties, and unparalleled building materials technology, AZEK Exteriors has emerged as the marketplace leader in premium products. We are proud to have been chosen by you time and again, earning industry awards for quality and builder preference. Still, we are committed to pushing our innovation even further. We research, test, and design premium exteriors solutions for improved installation and longer-lasting performance.

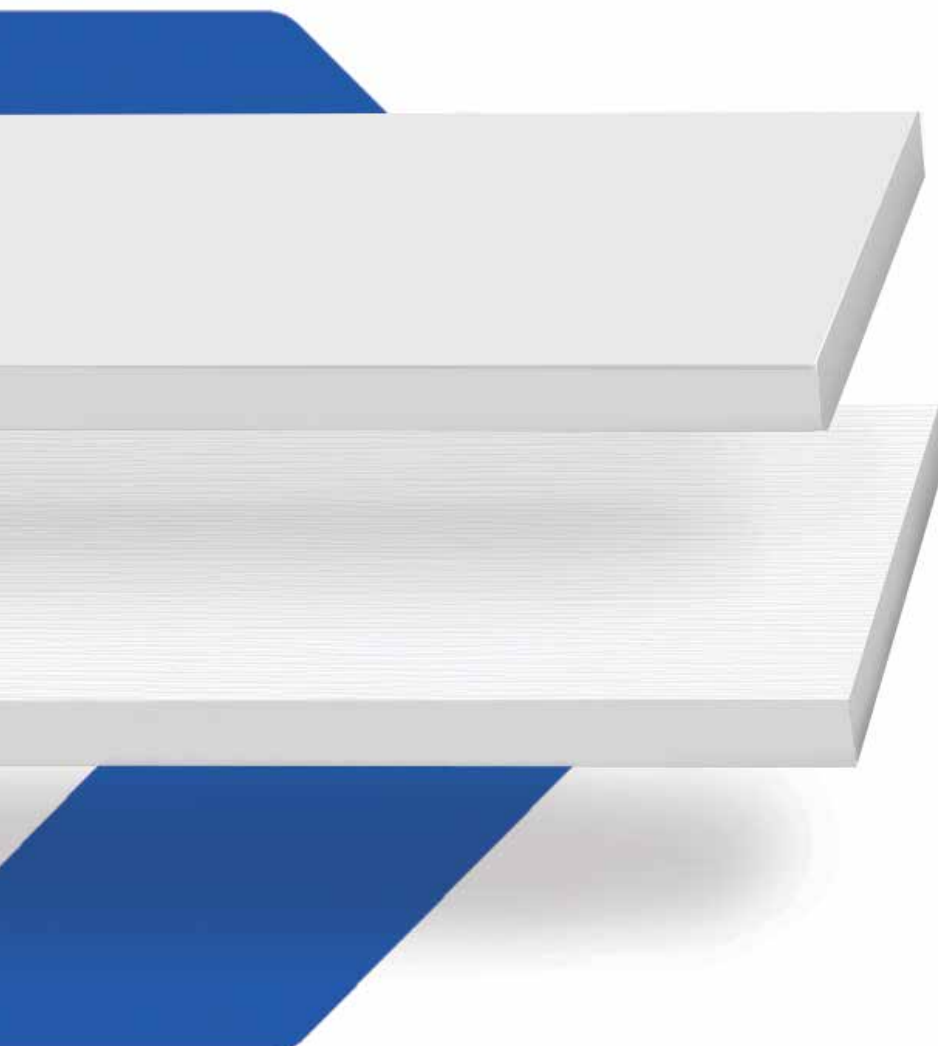

Because your projects — and your discerning clients — deserve it.

Why Wood You Ever?

We wouldn't. Unlike our PVC products, wood can offer no reliable protection against the elements. With wood trim or siding, you should expect:

- Water damage from mold and rot
- Costly painting and/or sealing and regular maintenance
- Unsightly weathering

AZEK® Industry-Leading Warranties

We guarantee the performance of our trim, moulding and siding with a Lifetime Limited Warranty that covers rotting, splitting, splintering, swelling, and warping.

Made in
the USA

Designed for Easy Installation. Engineered to Endure.

Our premium products are made from engineered polymer (cellular PVC) using advanced materials science and crafted for installation ease. With moisture resistance and durability far superior to traditional wood and other non wood alternatives, AZEK PVC ensures your build stays as beautiful on day 1,000 as on day 1.

Moisture-Resistant

AZEK boards are 100% protected, inside and out, from both water exposure and absorption.

Unprecedented Durability

Flexible and durable cellular PVC prevents jobsite breakage and delivers long-lasting protection for homeowners.

Rot-Resistant

Say goodbye to splitting, splintering, and rotting caused by constant exposure to the elements.

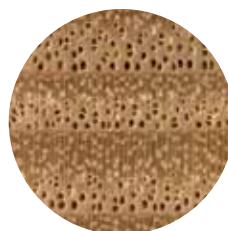

Every piece is designed for ease of installation to save time and cost on the job.

Wood can't compete

Cellular PVC

High-density PVC throughout the profile and exterior edges of AZEK products prevents water absorption and resists mold, warping, cracking, or splitting.

Organic Wood

Wood is lightweight, flexible and durable by nature, making it highly susceptible to water absorption that leads to splitting, cracking, and paint defects.

AZEK® PRODUCTS ARE DESIGNED TO PROVIDE INSTALLATION SOLUTIONS

AZEK offers more trim sizes and solution-based moulding profiles than any other brand on the market. By listening to the valued insight of contractors, architects, and homeowners, we have solved for problems like difficult installation, labor reduction and loss of design integrity. In a survey of 1,059 builders and 1,493 remodelers, AZEK earned the #1 Quality Rating in 2019-2020 from Builder and Remodeling magazines.

We are dedicated to delivering reliable, consistent products you can rely on to grow your business. Our cellular PVC products serve as the exterior solution you need — and your project deserves.

REMODELING Magazine and BUILDER Magazine are owned by 2020 Hanley Wood Media, Inc.

NEW SHINGLE SIDING
AZEK® Shingle with PaintPro® Technology offers rapid dry time and no need for primer. Page 8

UNIVERSAL SKIRT BOARD
Unlike traditional skirt boards, the Universal Skirt works well with vinyl, and many other siding products.. Page 31

J-SERIES QUICK CORNER

Fasteners are hidden during install due to the nailing flange. This one-piece corner eliminates the need for face nailing and touch-ups. Page 32

J-SERIES J-CHANNEL

The most seamless transition between siding and trim, the J-Series speeds installation. Page 32

COLUMN WRAP

This easy-to-install three-plus-one column wrap profile saves time and installation costs. Page 36

Stands up to the elements;
maintains a beautiful
finish even through harsh
weather

Moisture-resistant; will
not rot, split, splinter,
warp, or swell from
excessive moisture

Insect-resistant;
unappetizing
to destructive pests

Durable, lasting beauty
with less long-term
maintenance

AZEK SIDING WITH PAINTPRO® TECHNOLOGY

Made from a state-of-the-art proprietary engineered polymer, AZEK Siding options deliver the classic beauty of popular siding styles with the performance and low-maintenance benefits of rot-proof PVC building materials. Leveraging our innovative new PaintPro Technology, AZEK Shingle and Board & Batten offer rapid paint dry times, superior paint adhesion, and a painted finish that lasts without needing frequent maintenance.

Delivering enduring beauty with superior durability has never been so effortless.

Designed for paint—dries quickly, with no primer required

Lightweight makes the transport on the job much easier

Achieve the Authentic Wood Shingle Look

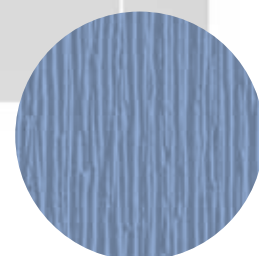

Varying Width Keyways

Engineered with design detail to ensure the finished installation delivers the variable beauty of natural wood shingles.

Multiple Tab Widths

The variety in tab sizes also helps create an inconsistent shingle pattern which mimics the authentic look.

Vertical woodgrain pattern throughout entire panel.

Straight Edge Shingle

Consistency with a dash of variety. Uniform horizontal lines with varied width tabs and keyways for the most natural-looking shingle to beautifully complement modern or classic exterior architecture.

Staggered Edge Shingle

Patterns with individual character, dimension, and diversity. Each random-edge panel enhances the overall pattern for an amazing exterior picture. Beautiful variety in both vertical and horizontal lines.

Easy to Install, Easier to Maintain

Our designs and innovations come to life with contractors constantly in mind. Save time and money with beautiful, diverse materials that are easier to install with long-lasting performance.

Installation Benefits:

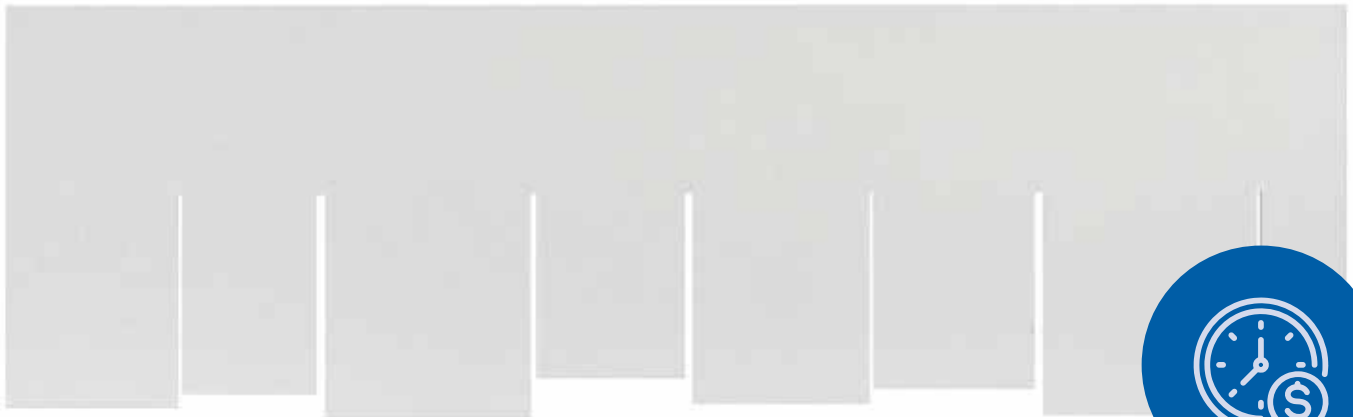

- Ready to paint. No sanding or primer needed
- No special tools required
- Engineered polymer is lightweight and durable
- Lightweight, flexible and durable
- No need to seal cut edges for water protection
- Cuts easily without splitting

Class A Rated Flame Spread Index:

AZEK Shingle Siding not only boasts gorgeous aesthetics to improve the value of your home, but a Class A Flame Spread Rating to protect that value.

Engineered for Workability

Lightweight

Easier to handle and transport for installation above ground level such as gable walls.

Less Breakage

Made from cellular PVC, the shingle panels deliver flexible durability that prevents jobsite breakage.

Saves time during painting and installation process.

Enhanced with PaintPro® Technology

➤ **Ready to Paint**

➤ **NO Sanding Needed**

➤ **NO Priming Needed**

➤ **Superior Paint Adhesion**

AZEK Exteriors Shingle Siding with PaintPro Technology leads the industry for paint coverage, adhesion and performance. The following information will help ensure you choose the right paint to provide the best long-term paint performance for products with PaintPro Technology.

Painting PVC Trim and Paint Type Guidelines

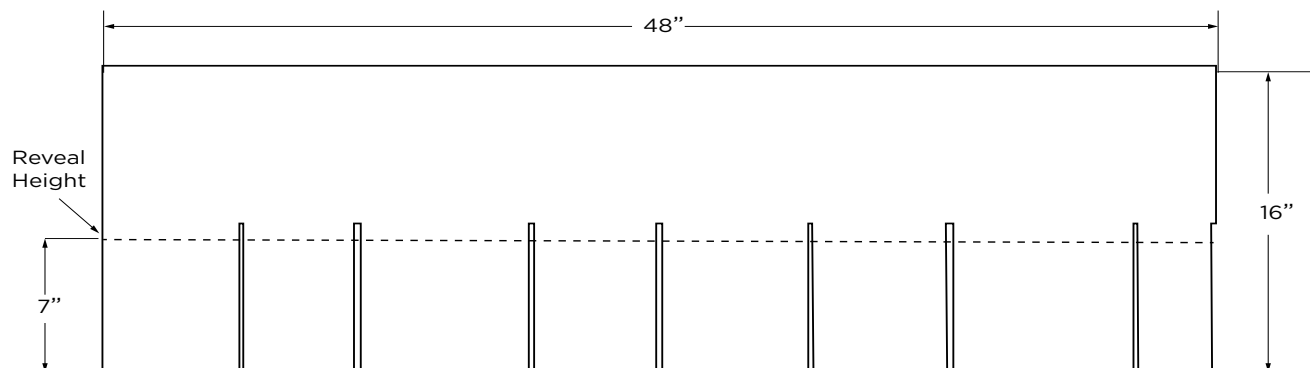

COLOR RANGE	KEY COLOR SELECTION CRITERIA	PAINT TYPE
Lighter colors only	Must have a light reflective value (LRV) above 55	Exterior 100% Acrylic Latex
Light, medium and some darker colors	Only use colors that are from a paint manufactures approved color list for vinyl siding. No custom colors.	Exterior 100% Acrylic Latex made for Vinyl Siding
All colors including dark and custom colors	Not available at most retail locations. Visit website below for online options: www.aqua-diy.com/azek/	Water-Based Solar Reflective Coatings

**Using 100% Exterior Grade Acrylic Latex paint colors with LRV less than 55 may lead to excessive expansion and contraction of your trim and will void your warranty. For more information visit www.azekexteriors.com/solutions/paintingpvctrim

Available in Three Profiles

5" Reveal Straight Edge Shingle Panel	48" x 12" x 1/4"

Board & Batten with PaintPro® Technology

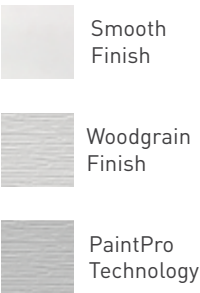

Traditionally, board and batten siding starts with wide vertical planks (boards), which are then joined together by thin vertical strips (battens) to cover the seams. Using AZEK Sheet as your board, and AZEK narrow trim boards as your batten strips—both enhanced with PaintPro® Technology—you lock in the clean look you desire, with materials that stay beautiful, longer.

See page 12 for painting guidelines.

- Multiple batten sizes for various design options
- Ready to paint. No sanding or primer needed
- Insect-resistant; unappetizing to destructive pest
- No special tools required
- Engineered polymer is lightweight and durable
- Moisture-resistant—will not rot, split, splinter, warp or swell from moisture
- Flexible, durable material helps prevent on-site breakage
- Uniform finish; no surface irregularities to work around
- For traditional white board & batten eliminate the need for paint and use AZEK Classic

Mix and Match for Various Patterns

Traditionally, board and batten siding starts with wide vertical planks (boards), which are then joined together by thin vertical strips (battens) to cover the seams. Using AZEK® Sheet as your board, and AZEK narrow trim boards as your batten strips you lock in the clean look you desire. Batten Strips and Sheet are available in both Classic White and PaintPro®, both products are reversible: one side smooth, one side woodgrain.

AZEK Board and Batten with PaintPro Technology

SHEET OPTIONS	
1/2" x 48" x 8'	Reversible Texture (Woodgrain/Smooth)
1/2" x 48" x 10'	Reversible Texture (Woodgrain/Smooth)

3/4" x 2.5" x 16'	Reversible Texture (Woodgrain/Smooth)

AZEK Board and Batten-Classic White

SHEET OPTIONS	
1/2" x 48" x 8'	Reversible Texture (Woodgrain/Smooth)
1/2" x 48" x 10'	Reversible Texture (Woodgrain/Smooth)
1/2" x 48" x 12'	Smooth
BATTEN OPTIONS	
3/4" x 1.5" x 18'	Reversible Texture (Woodgrain/Smooth)
3/4" x 2.5" x 18'	Smooth

Classic White Board and Batten

For a classic white approach as seen in farmhouse homes, choose Classic AZEK Sheet and Trim in semi-matte white. No need for painting means less time on the jobsite. AZEK Trim comes ready to install in brilliant white with two finish options (smooth and woodgrain) to complement and instantly elevate any surrounding.

- No need for painting for a long lasting white finish
- Available in smooth or woodgrain finish

Classic AZEK Board and Batten

Low-Maintenance, Painted Finish

Products from AZEK Exteriors with PaintPro® technology have enhanced paintability to provide effortless paint application, time savings and a superior paint bond for long-lasting performance. Paired with the durability and moisture resistance of engineered polymer, you can give your next siding install a painted finish that requires almost no maintenance.

- No prep, sanding or priming needed
- Faster dry time allows for quicker handling
- Stronger paint bond prevents splits, chips or flakes

CLOSED-JOINT CLADDING

Sometimes referred to as "closed-joint", tongue-and-groove boards interlock together with ease, creating a solid barrier with a neat, smoothly finished look without gaps.

Tongue-and-Groove Board Sizes:

OPEN-JOINT CLADDING

The open joints between the cladding elements create a strong, linear design pattern while also functionally providing ventilation for air circulation.

Square-Shoulder Boards Sizes:

Approved for Residential and Commercial

AZEK® Cladding is the only PVC cladding brand in the industry that offers tongue-and-groove (closed-joint) cladding for commercial and residential use. AZEK Capped Polymer Cladding is approved for commercial, residential and multi-family projects.

Residential Warranties

Developed from AZEK Exteriors' decades of industry experience and dedicated commitment to innovative materials science, AZEK Cladding is backed by industry-leading warranties for unrivaled performance.

Commercial Warranties

Bring the enduring beauty of AZEK Cladding to your commercial builds with the confidence guaranteed from durable, low-maintenance materials and industry-best performance.

CORTEX® CONCEALED FASTENING

Keep the focus on the warm, authentic wood aesthetics that complement the entirety of the exterior design and not on the installation method with the Cortex hidden fastening system. Defined by collated plugs made from actual AZEK Cladding boards and boasting pre-aligned grain patterns, Cortex promises the seamless, elegant finish your design needs.

AZEK® Trim Outperforms Wood Trim

AZEK Trim is made from engineered polymer to provide a durable, long-lasting building material that is far more resistant to the elements than wood. No sealants are needed on surfaces or cut ends; every inch of our trim is equally protected against moisture. With superior uniformity, durability, workability, beauty and much more, AZEK PVC Trim is the better choice for exteriors than wood.

Paint or No Paint, AZEK Has the Solution

CLASSIC AZEK TRIM	
Classic White	Goes with any color siding
Save Time and Money	Fast installation; no paint, stains, or sealant required
More Profiles	Wide array of profiles to mix and match to suit any architectural style
Resists Fading	Protected by UV inhibitors to guard against fading and yellowing
Superior Durability	Resistant to moisture; will not rot, warp, or crack and maintains a like-new appearance through harshest weather
Guaranteed	Lifetime Limited Warranty

Classic AZEK Trim: Crisp, Bright White

The ultimate exterior match-maker, AZEK Trim comes ready to install in brilliant white with two finish options (smooth and woodgrain) to complement and instantly elevate any surrounding. AZEK Classic Trim can be painted, but because paint is not required for a clean, finished look, installations go faster.

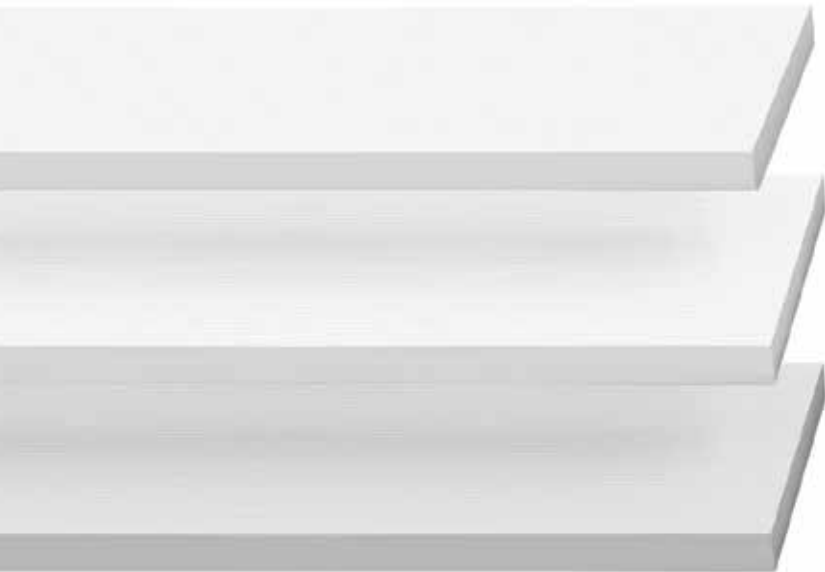

AZEK TRIM WITH PAINTPRO® TECHNOLOGY	
Enhanced Paintability	Engineered for long-lasting paint performance; superior adhesion helps prevent chips and flakes
Save Time and Money	No Sanding. No Priming. Fast dry time.
Flexible Design	Engineered for paint. Makes painting easier and faster than ever before*
Superior Durability	Provides a painted finish with less on-going maintenance
Guaranteed	Lifetime Limited Warranty

PaintPro® Technology: The Best Trim Substrate for Paint

If your project requires painting trim, AZEK PVC Trim with PaintPro technology is the perfect choice. Ready-to-Paint. No sanding. No priming. PaintPro Trim maintains the long-lasting, low-maintenance benefits of PVC trim while adding enhanced paintability. Paint bonds securely for lasting adhesion that resists splits, chips, and flakes. www.AZEKPaintPro.com

Classic AZEK Smooth

Smooth on both sides

Classic AZEK Woodgrain

Reversible (one side smooth, one side woodgrain)

PaintPro® Technology

Reversible (one side smooth, one side woodgrain)

All AZEK Trim is long-lasting, moisture-resistant and keeps its appearance with very little maintenance. Easily mill and route our trim, or heat form it before painting for exquisite customized or curved applications. Classic AZEK Trim's brilliant white complements any exterior while AZEK Trim with PaintPro® was made to be painted.

Protective Film to Help Keep Installs Cleaner

AZEK® TRIM WITH PROTECTIVE FILM AVAILABLE FOR SMOOTH AND WOODGRAIN FINISHES

To ensure that it looks as beautiful on your clients home as it does when it leaves our facilities, AZEK Trim comes with a protective film to preserve the crisp white semimatte finish.

Protective Film will be on the following AZEK Trim Products:

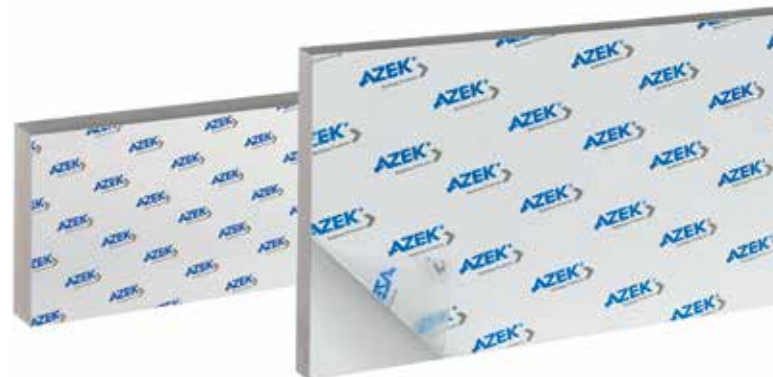

NOMINAL THICKNESS	NOMINAL WIDTH						
	4	5	6	8	10	12	16
5/4	SW	SW	SW	SW	SW	SW	SW
4/4	SW	SW	SW	SW	SW	SW	SW
5/8	SW	SW	SW	SW	SW	SW	SW

The film protects AZEK Trim through every production phase:

- Shipping
- Repackaging
- Installation
- Storage
- Handling

AZEK Trim with protective film should be kept dry prior to installation.

Do not expose film to direct sunlight for extended periods. Protective film can be removed prior to, during, or immediately after installation.

Flange Slotted
Window Trim and
Cornerboard

FLANGE SLOTTED AND RABBETED TRIM

Flange Slotted Window Trim and Rabbeted Trim are engineered to create beautiful, consistent and long-lasting window surrounds by removing the installation challenges. Rabbeted trim is ideal for replacing existing trim. The cut flange easily covers existing siding. Ideal for new construction, the Flange Slotted and Rabbeted Trim has a 3/4" pocket and if using a vinyl window the nailing fin will be hidden. The relief on the back of the board allows it to sit over the nailing flange without shimming.

Cornerboard

CORNERBOARDS

With seams that will not open, AZEK Cornerboards offer faster and more aesthetically pleasing installations to complement any home exterior. Unlike two-piece cornerboards, which attract dirt in the seam, our one-piece cornerboards feature smooth outside edges to keep dirt away and help prevent cuts during installation.

CORNERBOARD

*5/4 x 8" x 8" only available in Traditional

Cornerboard

Used with fiber cement and or wood siding. Caulk would be used when siding butts up against square trim face.

Rabbeted Cornerboard

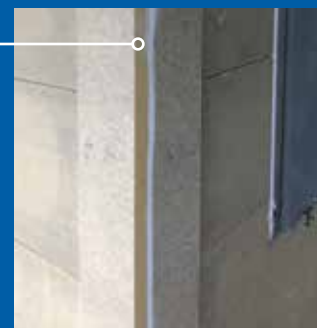

Most often used with vinyl siding, where siding tucks behind trim. NO caulk is needed.

Seamless Cornerboards for Quick, Clean Installation

The Problem

Multiple pieces requires more time and labor. Caulk is required to combine two trim boards. Other materials are not approved for ground and masonry contact.

The Solution

One-Piece Cornerboard, smooth seams, no caulk or paint required, faster installation with up to 20' board lengths.

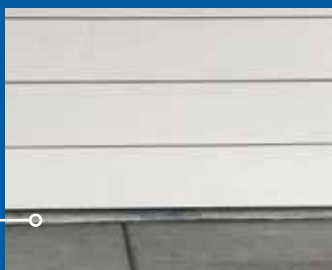

Shown:
One-Piece
Skirt Board

Save on Installation Time and Cost Without Compromising Beauty

The Problem

If using fiber cement, multiple pieces are needed and is not approved for ground masonry contact

The Solution

One-Piece Board is moisture-resistant, approved for ground contact

ONE-PIECE SKIRT BOARD

The perfect transition between siding and grade, the AZEK One-Piece Skirt Board is designed to eliminate the need for a separate starter strip, skirt board, or flashing. In addition to its consolidated three-in-one function, the slanted top of the board helps drain water away from the structure and allows for easy application of paint.

ONE-PIECE SKIRT BOARD

NOMINAL	ACTUAL	18'

Universal Skirt Board
No Starter strip needed, saves time on installation.

INTEGRATED DRIP EDGE

Designed to assist with water management efforts around doors and windows. Comes in two pieces with a reversible trim board; one side in smooth Traditional finish and the other in woodgrain Frontier finish. Routed to accept a drip edge for channeling water away from window and door surrounds. This profile design is also ideal for band board installations.

Integrated Drip Edge
Window and door surrounds assemble faster with the integrated nailing flange.

J-CHANNEL TRIM SERIES

- One piece corner and window trim installs quickly
- No caulk required and corner maintains its shape without seams opening
- Homeowners enjoy a more aesthetically pleasing look
- Approved for ground contact

No Caulk, No Paint, Fewer Steps—Faster Installation

The Problem

Wood and fiber cement corners requires multiple boards and extra install time

The Solution

One-piece inside and outside cornerboards with a j-channel install quickly, for a clean finish

J-QUICK CORNERS
One-piece corners designed for fast installs with premium siding

J-CASING
Single-piece trim, designed to work with premium vinyl siding

The Problem

Requires the purchase of both the trim board and J-channel

The Solution

AZEK J-Casing has an integrated j-channel and doesn't require paint for protection, reducing installation time and cost.

Shown:
J-Series J-Casing
and Quick Corner

J-CASING

AZEK® J-Casing offers the most beautiful and seamless transition between siding and trim. Engineered to reduce labor and save costs by eliminating the need for field-applied paint and caulk.

SOFFIT SOLID AND VENTED

Available in two profiles, Solid and Vented. Both provide climate-resistant material for smooth, beautiful finishing to match any home exterior. The Vented Soffit has 8" of venting and 4" of solid pattern that provides 10" of free air space per lineal foot to meet or exceed most building codes for ventilation. Vents cut at an angle to prevent insects from nesting; no additional screening necessary.

Beadboard

Plentiful Options for Ceilings and Walls

Beadboards and Beaded Sheets offer broad and beautiful coverage for ceilings under raised decks or above the porch. Tongue-and-Groove profiles can be oriented on walls horizontally or vertically. Just like all other AZEK Trim and Moulding, every product for exterior ceilings and walls is made from moisture-resistant, low-maintenance PVC and designed to elegantly complement and elevate the entire exterior.

Beaded Sheet

BEADBOARD E & CB

AZEK Beadboard (E & CB) is certified UL580 class 90 wind gust uplift-resistant, making it ideal for use in coastal areas. Reversible and perfect for wainscoting, with an edge and center bead on one side and a v-groove on the other.

Combine with overlapping "rabbeted" joints.

Nickle Gap
Tongue-and-groove joints and reverse side offers V-groove aesthetic.

Define the homeowner's personal style with AZEK® Moulding. With over 30 different profiles to mix and match, you can customize any build with a distinctive look. AZEK Sill profiles add water management as well as style to your project by directing water away from the structure.

BED MOULDING

Similar to crown moulding, a bed mould is used to cover the joint between the ceiling and wall.

RAMS CROWN

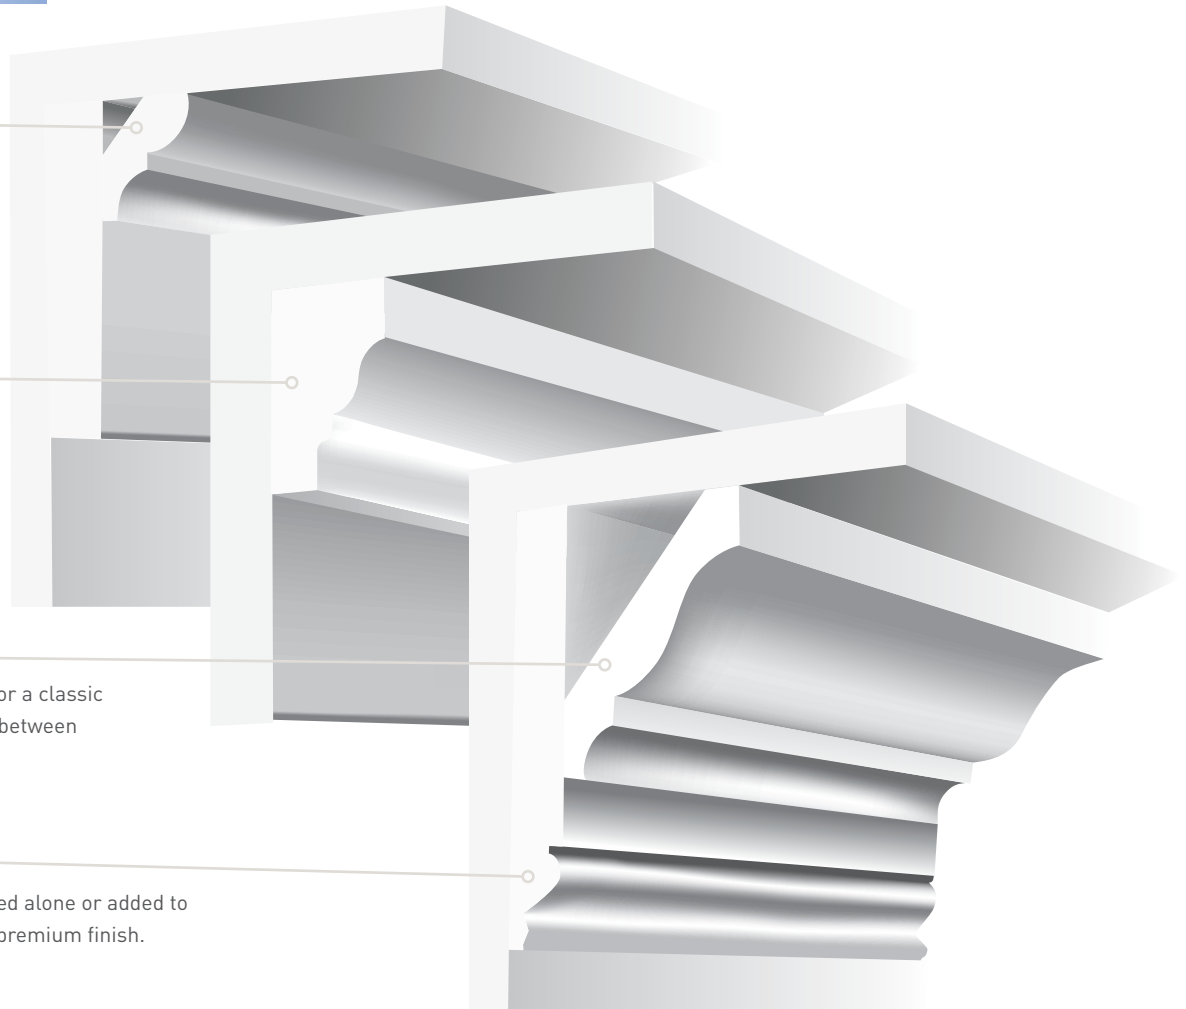

Consider installing Rams Crown at the top of a column or post, or use in place of a crown for a distinctive look.

CROWN MOULDING

Crown Moulding is used for a classic look, bridging the corner between the wall and ceiling.

BAND MOULDING

Band Moulding can be used alone or added to the base of a crown for a premium finish.

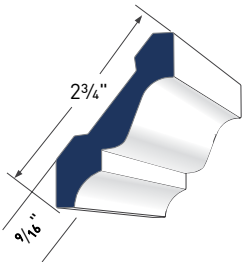

AZEK MOULDING IS THE MOST BEAUTIFUL HIGH-PERFORMANCE LINE OF MOULDINGS AVAILABLE

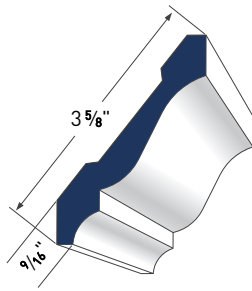

With crisp, architectural details reminiscent of premium wood mouldings, high-performance AZEK Moulding will last beautifully without the maintenance hassles associated with wood. Backed by AZEK's promise of high-quality and lasting performance, AZEK Moulding will retain a like-new appearance despite the tests of time and weather. AZEK Moulding offers greater stability and predictability when fastening. Unlike traditional wood moulding, AZEK Moulding resists moisture and insect damage and will not cup, rot or split.

CROWN PROFILES

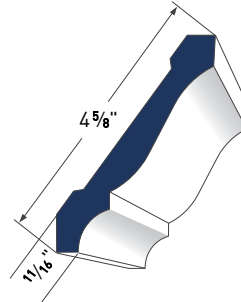

Crown moulding profiles are typically decorative mouldings designed for use along the intersection of a wall or ceiling. May be combined with other mouldings to create a built-up profile.

CREATIVE FREEDOM MEETS INNOVATIVE EFFICIENCY WITH AZEK® SURROUND DESIGNS

Drawing inspiration from architectural archives and a diverse trim collection, AZEK designers created a series of classic window and door surround designs to make style choices simple. Single-structure, pre-milled profiles reduce costly carpentry and assembly steps. These trim and moulding profiles are built up with varying shadow-line compositions and varying weights and widths, then matched with complementary sill profiles to give each surround its own character. AZEK Surround designs bring sophisticated styling and moisture management to your homes without breaking the budget.

STATESIDE

This surround grouping features horizontal stepping, casting distinct shadow lines. With its tall head and cap combination, the Stateside is best suited for large window or door arrangements, especially on historic home designs that call for dramatic horizontal definition. Match with the Historic Sill or Window Sill Nose.

TO CREATE THE STATESIDE SURROUND, USE THE PROFILES BELOW

- A**
CAP: 6/4 x 2-1/2
DRIP CAP: 5/4 x 4
HEAD: 5/4 x 6
CROSS STRIP: 4/4 x 2
CASING: 5/4 x 4 or 6
APRON: 5/4 x 4 or 6

- B**
HISTORIC SILL
AZM-6930
LENGTH: 16'

- OR USE
WINDOW SILL NOSE
AZM-7974
LENGTH: 12'

HISTORIC RAMS HEAD

This assembly replicates a classic surround with subtle detail. An attractive one-piece crown mould and wide head makes installation a breeze. The Historic Rams Head surround delivers an intriguing yet simple aesthetic and is commonly used in Arts and Crafts-styled homes. The Historic Sill should be used with this surround.

TO CREATE THE HISTORIC RAMS HEAD SURROUND, USE THE PROFILES BELOW

- A**
CROSSHEAD PEDIMENT
AZM-6216
LENGTH: 18'

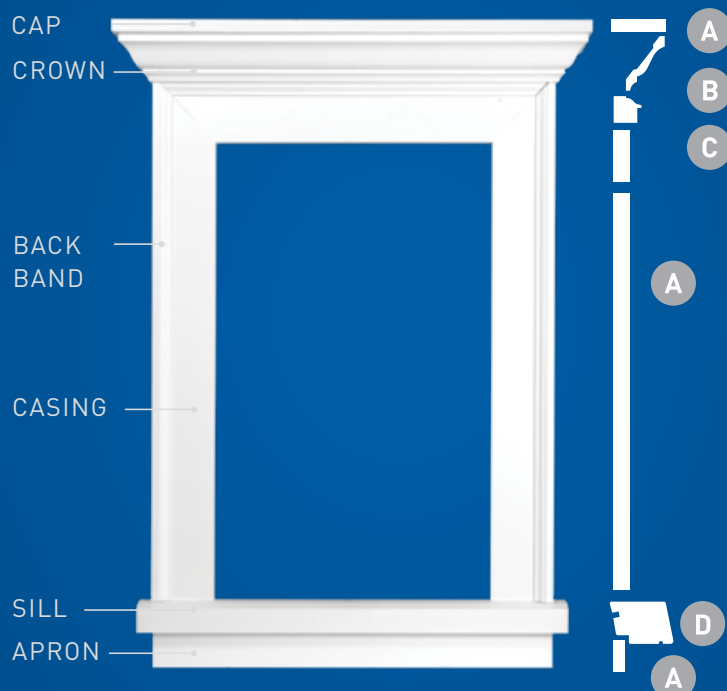

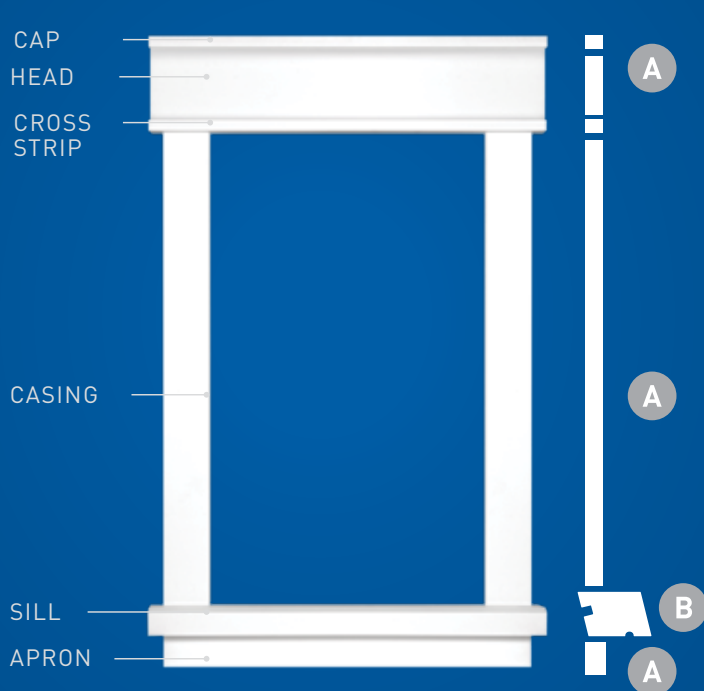

- B**
CASING: 5/4 x 4
APRON: 5/4 x 4

- C**
HISTORIC SILL
AZM-6930
LENGTH: 16'

DOUBLE-CROSS HEAD

For clean, versatile styling, the Double Cross Head surround accentuates strong horizontal shadow lines above and below the smooth-head member. The effect complements other trim detailing around the home without appearing overly decorative. The Window Sill Nose assembly is recommended.

TO CREATE THE DOUBLE CROSS HEAD SURROUND, USE THE PROFILES BELOW

A

CAP: 4/4 x 2
HEAD: 5/4 x 6
CROSS STRIP: 4/4 x 2
CASING: 5/4 x 6
APRON: 5/4 x 4 or 6

B

WINDOW SILL NOSE
AZM-7974
LENGTH: 12'

CROWNED BANDIT

The Crowned Bandit surround is ideal when a stronger vertical presence or higher level of detail is desired versus a linear approach. It's typically used to complement other moulded elements found in cornices, frieze banding, and columns. Finish with the Large Historic Sill profile.

TO CREATE THE CROWNED BANDIT SURROUND, USE THE PROFILES BELOW

A

CAP: 4/4 x 4
CASING: 4/4 x 6
APRON: 5/4 x 4 or 6

B

4" CROWN

AZM-7958
LENGTH: 16'

CLEAN AND SIMPLE

While compatible for a wide variety of traditional styles, the Clean and Simple surround is best suited for small- to medium-size windows.

This assembly is a cost-effective solution that creates smooth, understated framing. The Window Sill Nose or moulded apron assembly are recommended for this assembly.

TO CREATE THE CLEAN AND SIMPLE SURROUND, USE THE PROFILES BELOW

A
HEAD: 5/4 x 6
CASING: 5/4 x 4
APRON: 5/4 x 4

CORTEX® FOR AZEK® TRIM

Save time, money, and labor costs with Cortex for AZEK Trim. The only concealed fastening system that quickly and easily fastens AZEK Trim to your building project, Cortex comes with collated strips to make fastening faster.

Better fastener, better aesthetics

Make installation faster and easier with collated strips of Cortex plugs.

When using PaintPro® Trim, choose PaintPro Cortex plugs and paint to match trim color.

Drive fastener at 90° angle to preset level below trim surface.

Place plug with trim surface side up into hole. Gently tap plug until flush with the trim.

NEW squeeze bottle for AZEK PVC Cement makes applying a breeze.

ADHESIVES AND TOOLS

Use adhesives, sealants and accessories engineered specifically to bond with PVC products. The AZEK® solvent-free structural adhesive system is designed for fast, easy installation and enduring strength.

Right product, right application

Use AZEK Cellular PVC Cement for securing joints and other trim connections requiring tight compression.

Use AZEK Fast Cure and Slow Cure to fill gaps and other trim connections that do not require tight compression. Use a putty knife to distribute and sand when dry for a smooth finish.

Apply Fast Cure or Slow Cure on trim with rough edges, then sand for a smooth finish.

Use AZEK Nail Eraser to smooth surfaces marked by nails with small surface heads.

ADHESIVES

FAST CURE 220 ML

AAD220MLFCS

- White, two-part acrylic-based adhesive ideal for bonding AZEK to AZEK products; also bonds PVC to wood, metal, brick, vinyl, glass, and other PVC
- Work time 4-7 minutes at 70°F after mixing with Qwik-Mixer; fully cures in 24 hours
- Fills nail holes and gaps up to 1/8"
- Requires Qwik-Mixer for easy mixing and dispensing

SLOW CURE 220 ML

AAD220MLSCS

- White, two-part acrylic-based adhesive ideal for bonding AZEK to AZEK products; also bonds PVC to wood, metal, brick, vinyl, glass, and other PVC
- Work time 15-25 minutes at 70°F after mixing with Qwik-Mixer; fully cures in 24 hours
- Fill nail holes and gaps up to 1/2"
- Requires Qwik-Mixer for easy mixing and dispensing

Fast Cure Starter Kit
2 Qwik-Mixers
Fast Cure Adhesive 50 ml
Caulking Gun Adapter

AAD50MLFCSK

Slow Cure Starter Kit
2 Qwik-Mixers
Slow Cure Adhesive 50 ml
Caulking Gun Adapter

AAD50MLSCSK

Fast Cure and Slow Cure both work best filling gaps around trim and with adhesions not requiring a tightly compressed fit. After full curing, glued seams are stronger than the trim itself. Sand excess adhesive from the seam once dry for a smooth finish and paint if desired.

CELLULAR PVC CEMENT

Clear, contact-style adhesive bonds with PVC in a fast working time. Ideal for securing joints. Creates a powerful and reliable material bond with no sanding or scraping required.

Squeeze Bottle

4 oz: AADB004OZ, 8 oz: AADB008OZ,

Container with Applicator

4 oz: AAD004OZ, 8 oz: AAD008OZ,

16 oz: AAD016OZ, 32 oz: AAD032OZ,

128 oz: AAD128OZ, 640 oz: AAD640OZ

- 24-hour curing time
- Clamp 24-48 hours for best results
- Water soluble for easy cleanup when surfaces still wet
- Convenient applicator built into lid
- Use AZEK Adhesive to connect trim when a tight compression is required, such as connecting trim end-to-end (scarf joints) and at corners (miter joints)

FILL & FLEX

Use for expansion and contraction joints on PVC trim boards. Seals gaps around windows and doors. Slow curing, one-part urethane-based sealant with high level of flexibility and elongation to absorb expansion and contraction from heat or cold.

AAD300MLFF

- Premium-grade TiO2 pigments
- Resists long-term yellowing
- Allows ample work time
- 300 ml

ACCESSORIES

QWIK-MIXERS (24/PK)

Required dispenser for Fast Cure and Slow Cure AZEK® Adhesive products. The resin and catalyst blend together as they travel down the tube to the applicator tip. Ensures 1:1 ratio mix and provides easy adhesive application. 24 per pack.

50 ml: AAD50MLSQM

220 ml: AAD220MLQM

PLASTIC JOINING BISCUIT

PVC-compatible biscuits. Easy way to join, seal and finish PVC Trim.

BISCUIT PACK OF 50: AADPJB

PVC TRIM NAIL ERASERS

Fills finish nail holes in PVC trim. White color perfect matches AZEK trim. Resists yellowing.

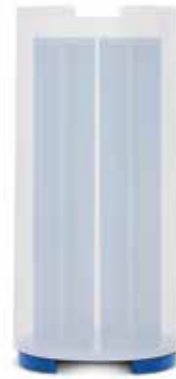

.5 oz: AADNEBLIS

MANUAL 50 ML DISPENSE GUN

Made of highly engineered plastic to be lightweight and powerful. Easy loading breech provides secure cartridge fit.

AAD50MLMG

CAULKING GUN ADAPTER

Tool adapter for caulking guns.

AAD50MLCGA

MANUAL 220 ML DISPENSE GUN

Its 26:1 mechanical advantage dispenses high and low viscosity adhesives with less user fatigue. Designed to maximize durability.

AAD220MLHF

Industry Leading Warranties

With decades in the business partnered with dedicated investments to research and development, AZEK makes it our mission to provide the best materials on the market. We guarantee the integrity of our siding, cladding, trim and moulding with a lifetime limited warranty that covers rotting, splitting, splintering, peeling and warping. It is also easy to maintain and resistant to mold, mildew and moisture damage. For more information, visit AZEKexteriors.com/warranty.

Contractor and Builder Information

AZEK® Siding, Cladding, Trim & Moulding should be installed using the same good building principles used to install wood trim and mouldings and in accordance with the local building codes and established installation guidelines. AZEK accepts no liability or responsibility for the improper installation of this product.

AZEK® Siding, Cladding, Trim & Moulding may not be suitable for every application and it is the sole responsibility of the installer to be sure that AZEK Siding, Cladding, Trim and Moulding are fit for the intended use. Since all installations are unique, it is also the installer's responsibility to determine specific requirements in regard to each application. AZEK recommends that all applications be reviewed by a licensed architect, engineer or local building official before installation.

Technical information and AZEK Trim and AZEK Moulding installation guides are available at AZEKexteriors.com/resources or from a local AZEK dealer. For further assistance, please call AZEK Customer Service at **877-ASK-AZEK (877-275-2935)** or visit our website at AZEKexteriors.com.
