

## VELUX ACTIVE

Smart sensor-based operation of your VELUX skylights, and blinds.

with  
**NETATMO**

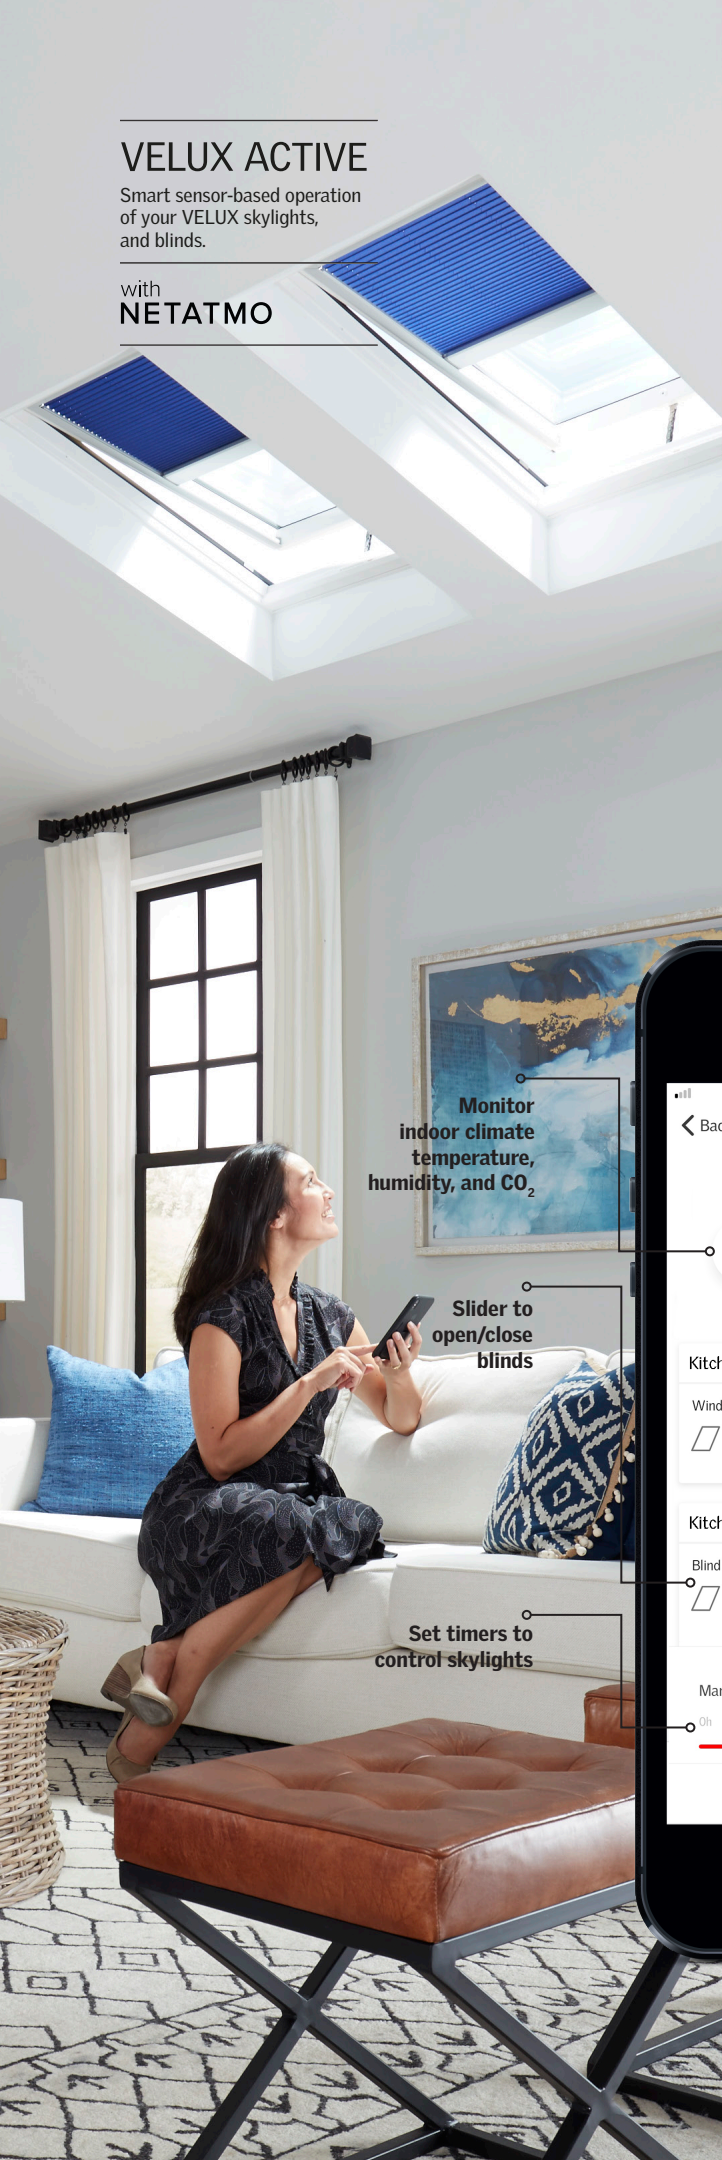

The No Leak Skylight™

# Your window to a smarter, healthier home.

For total skylight control, look no further than VELUX ACTIVE. Using your home's Wi-Fi, VELUX ACTIVE monitors indoor air quality and automatically opens or closes your skylights and blinds according to your preferences and outdoor conditions. Or take the reins and control them directly from the VELUX ACTIVE app – even if you're away from home. And with VELUX ACTIVE's smart home compatibility, controlling your skylight can be as simple as saying, "Hey Google..."

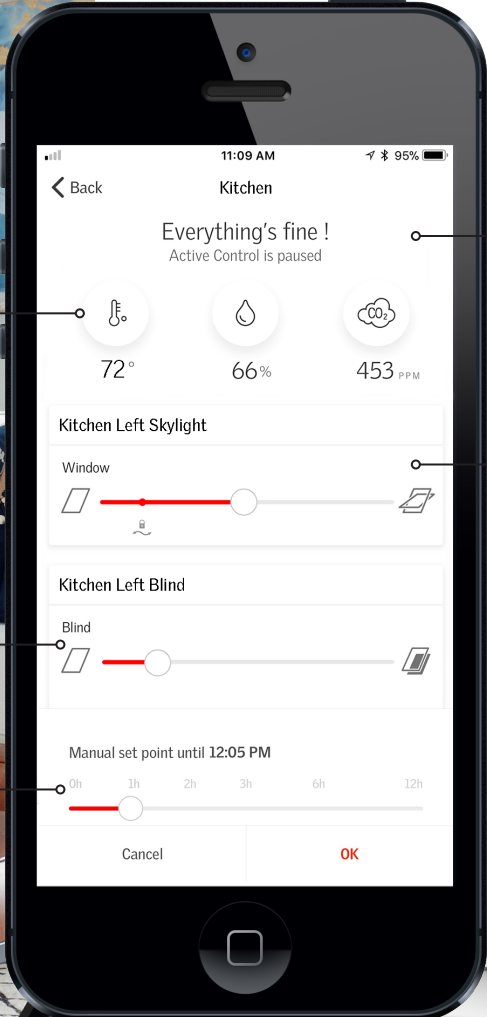

So, what are you waiting for? Upgrade your skylights with VELUX ACTIVE!

Monitor indoor climate temperature, humidity, and CO<sub>2</sub>
