

VELUX®

The No Leak Skylight™

Residential skylights

New installation

Remodel or new construction

Rooms filled with natural light and fresh air are invariably more beautiful, spacious, and uplifting to your spirits. Daylight is the essential element that transforms conventional rooms into splendid spaces. VELUX Skylights let you bring the best of the outdoors inside.

Skylight replacement

Three great reasons to replace skylights when you replace a roof

- 1. Save money** - The most convenient and affordable time to replace a skylight is during re-roofing.
- 2. Coinciding warranty** - You're getting a new roof with a warranty, why not replace your skylight and enjoy one there as well.
- 3. Improved energy efficiency** - Advanced LowE3 coating provides more daylight and better heat control.

Energy efficiency

Most VELUX products are ENERGY STAR® qualified in all 50 states. Go Solar and improve energy efficiency even further! (See page 11)

Choosing the right glass

Recommended for out-of-reach applications

Clean, Quiet & Safe glass

Clean

Features Neat® glass coating to keep your skylight cleaner longer, leaving skylights virtually spotless.

Quiet

Reduce unwanted outside noise by up to 25% compared to a standard double pane glass and up to 50% compared to a plastic skylight.

Safe

VELUX recommends and building codes require laminated glass for out-of-reach applications.

10-year
hail breakage
warranty

Clean, Quiet & Safe also available in impact, white laminated and snowload types of glass.

Recommended for in-reach applications

Tempered glass

Consists of dual-pane, triple-coated glass with LowE3, is dual-sealed and injected with argon gas.

Fresh air

Fresh air skylights help your home breathe by bringing in fresh outside air to maintain good indoor air quality. When skylights open warm, stale air is let out, which can help lower energy costs.

Solar-Powered "Fresh Air" Skylight

The ideal way to bring natural light and fresh air into your home and the logical choice for any skylight installation. With no need for wiring, it's perfect for new installations or skylight replacement.

- Allows complete control with remote
- Available in deck and curb-mounted applications

Eligible for a
30%
Federal tax credit

Receive an average of
\$850* with federal tax
credit eligibility.

No Leak Warranty

VELUX brand skylights are the world's most trusted brand of roof windows and skylights. Most of our skylights have the 10-year installation warranty.

This is achieved by our three layers of water protection.

- 1** The pre-attached skylight gasket provides a seal between the roof and the skylight.
- 2** Adhesive underlayment for secondary water protection against the harshest weather conditions.
- 3** Engineered flashing for easy installation and primary water protection.

The No Leak Skylight™

• No Leak Promise • No Worries

Installation methods

No leak skylight
10-year
installation
warranty

Deck-mounted

- Skylight with insulated glass lens.
- Built-in wood frame.
- Mounts directly to the roof deck.
- Engineered flashings integrate with roofing material. (sold separately)

VELUX flashing must be purchased in order to qualify for the 10-year installation warranty.

No leak skylight
10-year
installation
warranty

Curb-mounted

- A durable metal frame.
- Mounts directly to a site-built curb.
- Engineered flashings are available for use with site-built curbs for a weather-tight installation. (sold separately)

VELUX flashing must be purchased in order to qualify for the 10-year installation warranty.

Self-flashed

- Pre-attached pan flashing that mounts directly to the roof deck.
- Requires roofing sealant for a weather-tight installation.

VELUX Sun Tunnel®

- Reflective tunnel.
- One-piece flashing system.
- Mounts to the roof deck.

Skylight types

30%*
Federal tax
credit on
skylight

Manual "Fresh Air" skylights

- Opens and closes manually with VELUX control rods for out-of-reach applications and smooth turning handle for in-reach applications. (Sold separately)

• **Go Solar model available.**

Deck-mounted - Model FS
Curb-mounted - Model FCM
Self-flashed - Model QPF

Fixed skylights

- Economical choice to transform dark spaces with natural light.
- **Go Solar model available.**

**GO
SOLAR**

Go Solar. Save Big!

Did you know VELUX products can help you cut down your dependency on electricity and, ultimately, lower your carbon footprint? In fact, when you Go Solar with VELUX, you can greatly reduce your household's energy consumption year-round by actively fine-tuning the climate inside as the seasons change.

But the savings don't stop at cutting high energy costs! When you install any of VELUX's Go Solar products, you become eligible for a federal tax credit up to 30%* on product and installation. Because our Go Solar products qualify as Solar Electric Property, you can get back 22-30% of what you put into your project if you install by 2021.

*30% tax credit in effect through 2019. Credit changes to 26% in 2020, 22% in 2021. For more information visit veluxusa.com/go-solar

Blinds

Complete light control

VELUX blinds allow you to control the light, enhance your decor, and improve energy efficiency.

Room darkening, double-pleated blinds

- Blackout cloth with honeycomb structure.
- Neat pleats.

Light filtering, single-pleated blinds

- Softens incoming light.
- Neat pleats.

Factory-installed blinds

Take control of the light and simplify installation by including factory-installed blinds with your skylights. Step up and Go Solar with solar-powered blinds to become eligible for a federal tax credit on product and installation.

Flashing systems

Our engineered flashing provides a weather-tight installation, and is required for the **No Leak warranty**.

Deck-mounted flashing

Shingles/shakes - EDL

- Step flashing pieces interweave with roofing material for proper water drainage.
- Additional step pieces (ZZZ 200) are required for shakes and other thick roofing materials.

Tile roofing – EDW

- Patented-sill flashing features pliable pleats that form to most types of tile.
- Side and head flashing pieces form a gutter to direct water away from the skylight.

Metal roofing – EDM

- Flashing pieces interlock with roofing material for a fast, weather-tight installation.
- Sill apron features pliable pleats that form to the roof.

Other flashing options available

- Copper cladding and flashing.
- Combi applications.
- Biepack flashing – Type ECB.

Curb-mounted flashing

Shingles/shakes - ECL

- Step flashing pieces interweave with roofing material for proper water drainage.
- Additional step pieces (ZZZ 200) are required for shakes and other thick roofing materials.

Tile roofing – ECW

- Patented-sill flashing features pliable pleats that form to most types of tile.
- Side and head flashing pieces form a gutter to direct water away from the skylight.

10-in - Model
TMR, TGR, TSR

14-in - Model
TMR, TGR, TCR

Rigid tube / Dome

- Pitched flashing (TMR); provides optimum angle for gathering light from all directions.
- Also available with low-profile flashing (TGR, TSR) or curb-mounted flashing (TCR).
- 99.99% silver reflective layer with a 20-year tunnel warranty.
- Super energy efficient models available.

14-in - Model
TMF, TGF

22-in - Model
TGF

Flexible tube / Dome

- Pitched flashing (TMF); provides optimum angle for gathering light from all directions.
- Available with low-profile flashing (TGF).
- The flexible tunnel can be installed quickly around attic obstructions.
- Super energy efficient models available.

Sun Tunnel® Skylights

Why tubular skylights?

- VELUX Sun Tunnel® brings natural light into the darkest and most isolated spaces through a specially designed tunnel from roof to ceiling.
- Rigid and Flexible tube available.

14-in - Model
TLR

Rigid tube / Flat glass

- Low-profile design creates a sleek appearance on any roofline.
- Perfect for developments where local ordinances do not allow acrylic dome tubular skylights.
- Available in 14-in rigid only.
- Prefabricated light tunnel makes it easy to install.

Model
ZTL

Sun Tunnel® accessories

- Light kit for Sun Tunnel® skylights. (Model ZTL)
